Best College Tip!

HIGH SCHOOL VS. COLLEGE

High School

College

High school is MANDATORY and usually FREE	College is VOLUNTARY and EXPENSIVE
Your time is structured by your TEACHERS	YOU manage your own time
You can count on PARENTS and TEACHERS to remind you of assignments, priorities and deadlines	YOU must balance your responsibilities and set priorities. YOU are expected to take responsibility for what you do/don't do
Testing is FREQUENT and covers material AS YOU GO ALONG	Testing is NOT FREQUENT and covers LARGE amounts of material
Teachers frequently conduct REVIEW SESSIONS , pointing out important concepts	YOU , not the professor, are expected to PREPARE YOURSELF for a test
Teachers frequently rearrange test dates to AVOID CONFLICT with school events	Professors usually schedule tests WITHOUT REGARD for other classes or outside activities
You are NOT responsible for knowing what you need for graduation	Graduation requirements are COMPLEX and differ for each college
Parents CAN talk to your teachers without your permission	ONLY THE STUDENT can speak with their professor about their class, unless a FERPA waiver has been authorized

FERPA
Family Educational
Rights and Privacy Act

- Similar to HIPAA law
- Federal law that ensures privacy of student educational records
(begins when student starts college regardless of age)
- Collin College cannot share grades, course schedules, or test scores with parents
- A great opportunity for students to learn the college process and take on new responsibilities
- Students will need to use their Collin email address for communication with instructors

Dual Credit Eligibility

- Students complete the entire Collin College admissions process
- Permission must be obtained from high school counselor before enrollment
- Must meet college readiness standards as defined by Texas Success Initiative (TSI)
- Students must meet both high school and Collin College academic requirements to continue in the dual credit program
