

Imagine Math Log September

6th Grade Math

Each student needs to complete the initial Imagine Math Benchmark. Then, their task is to PASS an average of 2 Imagine Math lessons per week. This will be completed outside of their normal math class. These 3 PASSED lessons must be complete by September 30, 2019. This counts as a TEST GRADE for Term 1. Any passed lessons above the required will be an extra 2 points per lesson not to exceed 10 points.

A lesson only counts if it is PASSED. Just completing a lesson is not enough.

If a student does not have internet access at home, then he or she can come to my room or the computer lab before school at 7:20, stay after school with me (let me know ahead of time), or use intervention time if possible to complete the lessons.

The Imagine Math log below will serve as a pacing guide for your child, but need not be turned in. These are suggested dates. Students may work ahead, and if they fall behind, they just need to get caught up.

No lessons passed prior to August 30th will count toward this assignment.

Week	Dates	Lesson PASSED - write the topic name
Week 1	September 7 - September 13	1) Benchmark - 2) Lesson -
Week 2	September 14 - September 20	3) Lesson - 4) Lesson -
Week 3	September 21 - September 27	5) Lesson -
Week 4	September 28 - September 30
