

Rockwall ISD Guidelines for using UT Quest in Science Instruction

The Benefits of UT Quest:

- UT Quest allows cooperative learning while maintaining integrity of the assignment.
- UT Quest focuses on continuous growth by allowing multiple attempts.
- UT Quest provides students with instant feedback.
- UT Quest provides students with the flexibility to complete assignments based on their schedule.
- UT Quest is an effective way to incorporate Bring Your Own Technology.
- UT Quest allows Rockwall ISD to scaffold students into a platform for 21st Century learning.
- UT Quest is an effective tool for reviewing material and allows teachers to embed review material.

Teacher Best Practices

- Teachers should preview questions to ensure questions are at an appropriate level.
- Teachers should enable the multiple attempts functionality of UT Quest for homework assignments.
- Teachers should train students how to:
 - Register and Login
 - Enter answers in the proper format
 - Reset their password
 - Work out solutions showing steps before entering answers into UT Quest
- Teachers should provide appropriate in class/out of class time to complete assignments.
- Teachers should provide an opportunity for students to ask questions before the due date.
- Teachers should implement UT Quest consistently by PLC.

Student Best Practices

- Students should manage their time appropriately in order to complete assignments by the due date.
- Students should work out solutions showing steps before entering answers into UT Quest. (This will be valuable in tutorial.)
- Students should work collaboratively with their peers.
- Students should consult their notes, videos, books, and other resources as appropriate.
- Students should register their email address for a password reset.
- Students should review answers and solutions when needed.
- Students should utilize the 'view' interface which works best for them.
- Students should stop guessing when a question is missed multiple times and seek assistance from a teacher.
